Changes to your Advancement Committee?

When Committee membership changes must be made, the graduate advisor in consultation with the student should recommend a new committee member, giving the reason for the change. The change must be reviewed and approved by the Chair of the Graduate Group and the Vice Provost and Dean of Graduate Education.

The student may request that the committee be reconstituted:

- If a committee member’s absence from campus for an extended period of time makes scheduling of examinations unreasonably difficult.
- If there is a substantial change in the thesis topic.
- If there is a departure of a committee member from the university.

Complete the Request for Reconstitution of Committee Membership form in advance (at least 2 weeks prior to your scheduled examination date) to allow for review and processing time.

Please submit all documents to soe-grstaff@ucmerced.edu for review and routing purposes.
Changes to Advancement Committee – Adding External Committee Member

Under some circumstances one of the committee members can be a UC Merced faculty member from outside the group or a regular or adjunct faculty member from any UC campus or an individual from outside the University of California who has special expertise and qualifications. External committee members must be approved by the Graduate Dean.

The following is required for review and approval of an External Committee Member:

- A justification letter from the graduate advisor indicating the appointee’s affiliation and title and how the prospective appointee has special expertise or qualifications that are not represented on the campus.
- A curriculum vita from the proposed appointee.
- A letter from the proposed appointee indicating a willingness to serve on committee.

• You will need to provide this information along with your reconstitution of committee form. Submit your form and supporting documents to soe-grstaff@ucmerced.edu for review and routing purposes.
